

## WHO ARE THE HOSPICE BIOGRAPHERS?

The Hospice Biographers is a nationwide charity that trains and mentors specialist volunteers to record the memories of people with life limiting conditions.

Founded by Barbara Altounyan in 2017, our initial work has focussed on recording the life biographies of patients across all of the UK's 200 hospices. So far, we have recorded over 180 biographies and trained more than 30 hospices.

We have recently expanded our free of charge service to include all individuals with life limiting conditions ensuring more people can benefit from this therapeutic process of being able to 'tell their story'.

Our work ensures that families and friends can continue to draw comfort from hearing their loved ones' stories, in their own words and voice, for generations to come.

# Life Stories

*Everyone has a Story to Tell....  
.....What's Yours?*

## WHAT IS LIFE STORIES?

As a result of Covid-19, The Hospice Biographers have designed an exciting new way of working, enabling us to continue to record the stories of people who are facing the end of their life.

Developed by our founder Barbara Altounyan, Life Stories uses mobile technology to remotely record conversations between family members.

## HOW DOES IT WORK?

With the support of our fully trained Life Story Volunteers and a dedicated Sound Engineer, we create precious memories for family and friends to listen to and cherish for generations to come.

Our Project Manager will talk you through this easy and enjoyable free service and our Life Story Volunteers will ensure you and your family are fully prepared.

After the interview, your nominated family member or friend will receive a high quality audio file to treasure.

## WHY SHOULD I TAKE PART?

At a time where families may feel disconnected and isolated, Life Stories, provides a therapeutic experience to reflect, reconnect and celebrate with those we love.

## HOW DO I FIND OUT MORE?

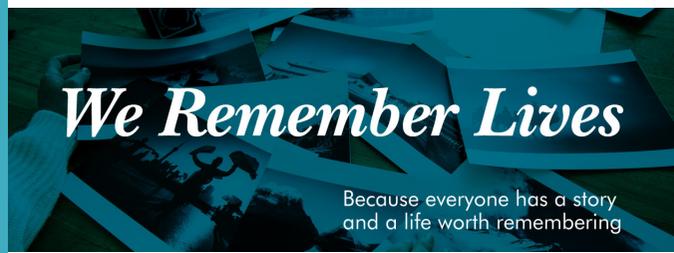

To find out more about Life Stories or to book a recording, please contact Helen on
